COMMENTS

The above license validation keys are for trial versions. All license validation keys are programmed to expire after 28 days of use.

Trial version licenses will only allow up to 28 new checks to be created per day along with a few other trial version flags to remind user that the underlying software is for demonstration purpose only.

Each of the above license validation keys allows up to 5 concurrent stations. Please note that Pro and Lite editions cannot be used at the same time to connect to the same underlying database.
